

# Optical Sales and Inventory ManagementPlus

Inventory Control, Sales Tracking and Barcoding

Sales revenue from an optical shop can make a significant difference in practice profitability. With many systems, managing inventory and tracking sales is time consuming and troublesome. Staff resist doing inventory and find little incentive to promote products. But with ManagementPlus Optical Sales and Inventory, managing a retail shop within your ophthalmology practice consumes little time and effort. Seamlessly integrated with billing, scheduling and EHR, it is the complete system to manage a successful optical shop.

- **Track Patient Prescription and Order History.** Prescription and order history for each patient is accessible at the point of sale. This allows sales people a personal connection with customers to help guide them through the process of making the right purchase for their needs.
- **Bar Code System.** Track inventory from manufacturer barcodes. If needed, easily prints tags or labels with barcodes and pricing. Reduce keystrokes and data entry, save time and integrate retail sales with billing.
- **Interface with FramesData.** Automatically connect to FramesData to manage inventory. One click enters item into inventory with product details and ordering information. Easily print barcodes and price tags.
- **Optical benefits based on patient coverage.** Interface with patient data, including details about insurance coverage and benefits. System automatically displays patient's portion of the bill at the point of sale.
- **Track and set sales commission by staff or product.**
- **Seamless billing interface generates patient receipts.**
- **Wireless inventory capability.**
- **Generate purchase orders and lab orders.**
- **VisionWeb interface.**

## ManagementPlus Optical Sales and Inventory Enables Your Practice to:

- ✓ **Integrate with EHR**
- ✓ **Track Inventory**
- ✓ **Print Barcodes**
- ✓ **Save Staff Time**
- ✓ **Maximize Revenue**
