

# Practice Management Suite ManagementPlus

EHR, Billing, Scheduling, Collections and Optical

ManagementPlus Ophthalmic Software was developed by healthcare professionals using best-in-class technology, making it the most user-friendly practice management solution on the market. The highly intuitive interface was designed to make it easy-to-setup and easy-to-use. It works the way you do because it was created by people with healthcare and ophthalmology experience. With our 96% live call ratio and integrated Electronic Health Records, ManagementPlus is the best PM solution on the market.

- **Billing Rules.** Your practice will maximize revenue by reducing data entry errors, reducing keystrokes, and eliminating the need to memorize codes and numbers. This reduces claim denials and helps increase revenue.
- **Multiple or Solo Providers.** Instantly access records for any physician at any location; the system is especially suited to multi-location and multi-provider practices.
- **Three Levels of Claims Scrubbing.** Reduce claim denials and re-work by increasing first-time claim validation rates.
- **Seamless patient encounter.** Workflow is streamlined, so your practice is coordinated, organized and proactive. Instant access to lab results, charts, patient history, medications and alerts, improves the patient encounter.
- **Maximize reimbursements.** EHR is integrated with billing and insurance/payor information. Accurate E/M coding greatly reduces errors to maximize reimbursements.
- **Easy-to-use.** Developed by healthcare professionals, ManagementPlus EHR was designed to function like your practice by using familiar templates and processes.
- **Interface with multiple diagnostic equipment.**
- **Improve documentation reducing costly errors.**
- **Easily access patient records at multiple locations.**

## ManagementPlus Ophthalmic Practice Software enables your practice to:

- ✓ Integrate with EHR
- ✓ Reduce Errors
- ✓ Accurately Code
- ✓ Reduce Staff Time
- ✓ Maximize Revenue

# Practice Management Suite - ManagementPlus

EHR, Billing, Scheduling, Collections and Optical

- **Schedule Physicians, Staff, Equipment and Rooms.** Practice resources are valuable assets. Optimize those resources by scheduling each component of the exam according to need and availability. Reduce patient wait time, see more patients per day and increase practice profitability.
  - **Easily Create Reports From Scheduling Information.** Generate reports to review the less productive areas of the practice to discover how productivity can be increased. Monitor expensive equipment for maximum usage.
  - **Recall Worklist.** Keep track of mail, phone or email patient notifications. Easily generate cards, letters and labels to notify patients of the need to make an appointment. Track patient no-shows.
  - **Generate Reports From Virtually Any Field or Table.** ManagementPlus is a data-driven system and offers reporting from nearly any field or table. Whether custom fields or standard data tables, you can generate virtually an unlimited variety of reports.
  - **Easily Calculate Numbers and Figures.**
- **96% Live Call Ratio.** When you call Customer Service, on average, you get a live person 96% of the time. Our knowledgeable and well-trained technical staff is located in Salt Lake City. Each is proficient in all aspects of the software and can address complex issues.
  - **97% Claims Acceptance Rate.** If insurance claims are rejected you have to start the process over, wasting time and money. We have a proven claims acceptance rate of 97%.
- **Track Patient Prescription and Order History.** Prescription and order history is accessible at the point of sale. This allows sales people a personal connection with customers to help guide them through the process of making the right purchase for their needs.
  - **Bar Code System.** Track inventory from manufacturer barcodes. Easily print tags or labels with barcodes and pricing. Reduce keystrokes, save time and integrate retail sales with billing.
  - **Security Access Feature.** Limit those who view or alter reports. Easily customize access by individual staff person or security level. For instance, create reports to be viewed by only practice locations, physicians or administrators.

**ALL THE TOOLS**

*To Run YOUR PRACTICE*
